PROFESSIONAL SUMMARY

I am a full-stack web developer with a degree in Information Systems Development from ISET du Kef. Turning ideas into full-stack web applications, from database to interface, is something I truly enjoy, and I'm confident I can adapt to any library or framework. Driven by curiosity, I dive into anything that sparks my interest and keep pushing until I master it, whether it's React, Next.js, Node.js, PostgreSQL, or AI/LLM integration.

EXPERIENCE & PROJECTS

Developer Portfolio *Personal Project · Next.js, Tailwind CSS*

[Live demo](#) · [Source code \(GitHub\)](#)

- Designed and developed a modern portfolio with Next.js (App Router) and Tailwind CSS.
- Built a clean architecture with reusable components, ensuring the project's scalability and maintainability.
- Optimized performance and SEO through Next.js routing, server-side rendering (SSR), and static asset optimization.
- Developed a reliable contact form with data validation (Zod) via API routes.

Note: (Feb 3, 2024 - Apr 13, 2026) medical leave: supporting documentation is available upon request.

Full Stack Web Developer *TAC-TIC · Internship*

Ariana, Tunisia · Remote · Feb 2023 – Jun 2023

- Built the full PFE submission and validation lifecycle, serving three role-scoped user types: Student, Supervisor, and Administrator.
- Designed a multi-stage submission pipeline (Draft, Submitted, Under Review, Approved/Rejected) with service-layer state transition logic in Laravel.
- Managed global state via Context API, covering authenticated sessions, role resolution, and protected routing through React Router guards.
- Used React Hook Form for form validation, Tailwind CSS for utility-first UI, and a RESTful backend following a thin-controller, service-class architecture.

Frontend Developer *WebUp · Internship*

Kef, Tunisia · On-site · Jan 2022 – Feb 2022

- Built a fully responsive UI with HTML5, CSS3, and Bootstrap, ensuring consistency across devices.
- Implemented dynamic UI interactions and form validation using vanilla JavaScript.
- Structured employee data views (lists, profiles, forms) with clean, reusable HTML/CSS components.
- Collaborated on integrating the frontend with backend data to display and manage employee records.

EDUCATION

Bachelor's Degree in Applied Information Systems Development

ISET Kef · 2020 – 2023

- National Bachelor's degree awarded under the LMD reform by the Information Technology Department of ISET Kef.
- DSI track (Information Systems Development): training focused on the analysis and design of information systems, database development, and the development of business applications and websites.

SKILLS

Programming languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Libraries & Frameworks: React.js, Next.js, Tailwind CSS, Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL

AI & LLM: AI/LLM integration, RAG, MCP

Tools & DevOps: Docker, Git, GitHub, VS Code

Soft skills: Problem-solving, communication, teamwork, time management

LANGUAGES

Arabic: Native language

English: Professional fluency

French: Intermediate level

Spanish / German: Basic knowledge
